About Me

Hello, I am Adam Houlihal. I am a Software Engineering Student at National School Of Applied Sciences Fez, currently I'm working on Web Developement both front-end and back-end. I'm so Interested in Cyber Security especially Penetration Testing. Thus, I hope getting the chance to learn about this field more, and practice in some real life scenarios. So I am ready and very passionate to discover new tips and tricks to build a successful career.
